

Overview

The Noojee and District Historical Society

This presentation records the upgrade of the Platform & Goods Shed and the 1960 Louvre Carriage

- The Platform & Goods Shed has been converted into our volunteer office and showcases tools from circa.1900 Timber Industry
- The 1960 Louvre Carriage has been transformed into our display centre for visitors to the Noojee Heritage Railway Station Precinct

The Noojee Heritage Railway Station Precinct

The precinct is a project close to many people's hearts. It began as a dream in 2005! What motivated us was to recognise the efforts of the many men and women pioneers and great Aussie battlers who shaped our heritage. The precinct showcases the history of Noojee, the region, the culture, the lives of times gone by. It is a beacon for history buffs, train enthusiasts, relatives and friends alike. It is a destination of historical and cultural significance, as well as a focal point for our community to be reminded of our character and identity.

- Noojee Heritage Centre
- J550 Steam locomotive display
- Railway Goods Shed
- Graeme Brown Snr Memorial Park with paling saw display
- Chain saw carving artworks by Paul Stafford
- Recognition of Aboriginal culture and heritage
- Timber rail displays
- Start of the Small Transport Victoria Noojee Rail trail and tramway walk and cycling adventure
